

Please be advised that as of January 1, 2019, the Ministry of Science and Higher Education introduced an obligation to check diploma theses in the Uniform Anti-Plagiarism System (JSA). JSA is a system used to check diploma theses for plagiarism and is intended to support the verification of the promoter (supervisor). The JSA system cooperates with the National Repository of Written Diploma Theses (ORPPD) (it has full access to its constantly updated database) and the POL-on system (supporting data for completing the metrics of researched works).
